Change of System – \$21.00 per account (inclusive of GST)

Metering costs to switch to the Distributed Energy Buyback Scheme *(if required)*

| | |
|-------------------|----------------|
| Meter Upgrade Fee | \$95.70 |
|-------------------|----------------|

| | |
|----------------------------------|----------------|
| Meter Reprogram Fee [^] | \$95.70 |
|----------------------------------|----------------|

All metering cost rates quoted above are inclusive of GST.

Communications equipment installation *(if required)*

Additional charges may apply in situations where Western Power deems it is necessary to install communications capability on the meter to take the required meter readings. Price on application.

[^]If you already have an existing compatible meter your meter can (for the Meter Reprogram Fee) be reprogrammed to switch to the Distributed Energy Buyback Scheme. If you are unsure or wish to confirm your meter type, please call Synergy on 13 13 53.

Residential Customers

Distributed Energy Buyback

Scheme Buyback Rate

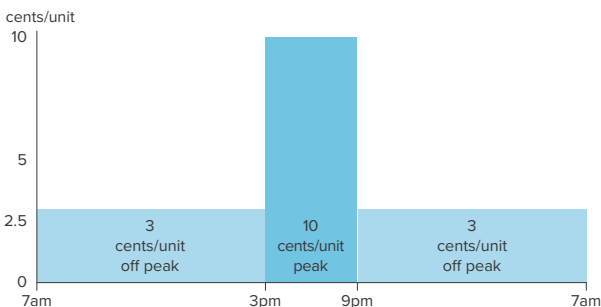

c/kWh

(applicable to residential customers)

Peak – Between 3pm and 9pm: **10**

Off-Peak – Before 3pm or after 9pm: **3**

The rates quoted above will be applicable from 6 November 2020, until then all DEBS customers will receive a flat buyback rate of 7.135 cents for every unit of electricity exported back into the grid. The rates quoted above are exclusive of GST, unless provided for otherwise under the DEBS Terms and Conditions. Prices subject to change at any time.

Non Residential Customers

The Distributed Energy Buyback Scheme Buyback Rates on this page are applicable to not-for-profit and educational organisations.

Distributed Energy Buyback Scheme Buyback Rate

c/kWh

Peak – Between 3pm and 9pm: **10**

Off-Peak – Before 3pm or after 9pm: **3**

The rates quoted above will be applicable from 6 November 2020, until then all DEBS customers will receive a flat buyback rate of 7.135 cents for every unit of electricity exported back into the grid. The rates quoted above are exclusive of GST, unless provided for otherwise under the DEBS Terms and Conditions. Prices subject to change at any time.

- ✦ All prices in this schedule are subject to change at any time.
- ✦ The meter is not transferable to any other property. The meter stays where it is installed, even if you sell the property and/or move. The meter always remains the property of the network operator, Western Power.
- ✦ Metering costs may apply to switch to DEBS and if applicable will be charged on your next Synergy bill.
- ✦ The Distributed Energy Buyback Scheme Administration Fee is a one off fee payable once you are accepted to participate in DEBS and charged on your next Synergy bill.
